PROFILE

Product-focused UI/UX Designer with 5+ years of experience and 100+ web and mobile projects delivered, from early-stage products to established platforms. Skilled in Figma, user research, UX strategy, wireframing, prototyping, design systems, and usability testing, with a strong focus on solving real user problems and delivering impactful digital products.

SKILLS

Product Design: End-to-End Product Design, Product Thinking, UX Strategy, Problem Solving, User-Centered Design

UX Research: User Research, User Interviews, Competitor Analysis, User Personas, Journey Mapping, Information Architecture

UX Design: User Flows, Wireframing, Interaction Design, Prototyping, Usability Testing, Accessibility

UI Design: Responsive Design, Visual Design, Design Systems, Component Libraries, Design Guidelines

Tools: Figma, FigJam, Adobe Photoshop, Adobe Illustrator

Collaboration: Developer Handoff, Design Documentation, Cross-Functional Collaboration, Agile/Scrum

WORK EXPERIENCE

UI/UX Designer 02/2025 – Present
Teamworks United Indore, India
• Lead end-to-end product design across 15–17 features spanning web and mobile products, from user flows and wireframes to high-fidelity prototypes.

• Conducted user and competitor research to surface pain points and reshape product journeys.

• Built responsive interfaces and interactive prototypes in close collaboration with stakeholders and developers.

UI/UX Designer 05/2023 – 02/2025
3 clicks Branding Ahmedabad, India
• Delivered user-centered, responsive web and mobile designs across multiple client engagements, balancing user needs with business goals.

• Translated complex, often ambiguous client requirements into clear user flows, wireframes, and polished high-fidelity UI.

• Strengthened usability and design consistency through iterative, research-led design cycles and close developer partnership.

UI/UX Designer 03/2021 – 05/2023
Pearl Organisation Dehradun, India
• Designed accessible, engagement-focused digital experiences, building a strong foundation in end-to-end UX design.

• Maintain and evolve a reusable design system of 120–150+ components, adopted by an 8–10 person design team and 25–40 developers — noticeably speeding up developer handoff since rollout.

• Partner with product, engineering, and business stakeholders to convert ambiguous problems into clear, scalable design solutions.

SELECTED PROJECTS (FROM 100+ DELIVERED)

POS & Inventory Management System
• Architected end-to-end workflows for billing, inventory management, order tracking, and daily business operations.

• Built dashboards, user flows, and a reusable UI component set that simplified complex retail and business workflows.

Mobile Application | iOS & Android
• Designed intuitive navigation and platform-specific interaction patterns for a cross-platform mobile app.

• Delivered user flows, wireframes, high-fidelity UI, and interactive prototypes with a focus on accessibility.

Employee Management System
• Streamlined onboarding, attendance, leave management, and performance-tracking workflows.

• Created role-based dashboards and reusable components that simplified HR operations.

Analytics Dashboard | SaaS Web Application
• Designed a data-driven dashboard for tracking key metrics and supporting informed decision-making.

• Improved usability through clear information hierarchy, filters, and scalable data visualization components.
